

at Green Oak C of E Primary and Nursery School

As a school we are using the Jigsaw programme to give a more cohesive approach to our teaching of Personal Social Health Education in which British Values and mindfulness play a key part. Each class has their own folder of lessons and activities, CD with songs, Jigsaw toy to use in discussions and chime bar, which is used to focus the class in a mindful introduction to the lesson.

Each year the children work through a series of lessons, activities and assemblies following the 6 key parts of the puzzle as shown below. The children and staff are really enjoying using the programme.

Each class signs up to follow The Jigsaw Charter and agrees to abide by these rules during the sessions ensuring a structure within which everyone will feel comfortable to share their thoughts and ideas.
